

slender in 60 minutes

With the Body Lift Mineral Wrap at Suddenly Slender, you can lose as much as 20 inches of unwanted bulge in a matter of minutes. Every busy woman's dream!

Your best friend's wedding is just around the corner and you need to fit into that lovely, form-fitting Herve Leger dress you bought a month before. But too many heavy dinners have taken their toll and now it's beginning to show: thicker waist, rounder tummy and oh no! are those love handles you see?

In quiet desperation you look for the quickest solution. Gym – sorry, takes too long. Weight loss formulas – same reason. Bear with it? Absolutely not! You've spent a mini fortune on the dress... and don't forget you have your old classmates to impress.

To the rescue: Body Lift Mineral Wrap. A celebrity favourite for its instant results, it is literally the talk of the town, especially Tinseltown. Suddenly Slender has been featured on famous talk show Oprah, and actresses such as Kate Winslet and Penelope Cruz have sworn by these wraps for quick tone-ups before important events like the Golden Globes.

So how does Suddenly Slender promise that you'll lose six to 20 inches from your body with their Body Lift Mineral Wrap? The secret is in the unique wrapping formula that Suddenly Slender centres all over the world use.

First, your body measurements are taken. Then, your body is wrapped with porous elastic bandages soaked with healthy mineral solution comprising 175 natural minerals and nutrients, including antioxidants, vitamins, calcium, magnesium and oxygen. Next, you do some light exercise on a glider or power shaper to make the treatment even more effective.

As you're doing this light exercise, a combination of the snug wrap and the mineral solution breaks down the stubborn fat and flushes out impurities.

The mineral solution is replenished every 20 minutes to speed up this exchange process until time is up, usually an hour. Time passes very fast and pleasantly, as you get to watch your choice DVD in a private room.

When the wrap is removed, you're in for a wonderful surprise! The inches have practically whittled away, giving your body a shapely, sexy silhouette. The therapist actually records the inches you've lost. It can range from six inches to an impressive 20 inches! Unlike other wraps, the Body Lift Mineral wrap does not make your body temperature rise. You don't feel hot or dehydrated or even need to sweat!

Losing inches is not the only benefit. Flushing out toxins delays ageing and gets rid of cellulite while promoting wellbeing. No wonder figure-conscious women are repeatedly having the Body Lift Mineral wrap at Suddenly Slender. Not only are they impressed by the result but also by how good they feel. Even better, if you don't gain the weight back, results are permanent. See now why the stars love it? So will you!

Fat Burning Body Wrap

Our Fat Burning Wrap breaks down even the hardest, most stubborn fat tissue. The secret is Lipase, an enzyme that naturally occurs in the body, which breaks down fat for digestion instead of storage. The Fat Burning Wrap packs a concentrated dose of this enzyme to zero in on fat cells, penetrating beyond the dense muscle that surrounds fat. It draws out toxins and impurities, burning fat efficiently and effectively in record time. This is what makes our Fat Burning Wrap such a popular choice for women who want to zap cellulite and achieve maximum inch loss instantly!
