TRANSFORMATION

These three ladies share their weight loss victories after undergoing three months of treatments at preventive healthcare and slimming specialist Suddenly Slender

HONG AI LIN, 32,
This yummy mummy is happy that she has gone down three dress sizes, and able to slip on her favourite designer jeans

**Before: 75 kg
Now: 54 kg**

To look at this hot mama, you can't tell that Ai Lin is a mother of four young children. She used to be slim before marriage but gradually grew bottom heavy due to pregnancy, hormonal imbalance and stress. She had spend thousands before on various slimming

program but not successful.

She says, "When I first joined the programme, my goal was to slim down enough to fit into the clothes that I want to wear again. I've since changed 80 per cent of my wardrobe to smaller sizes. Luckily my bras do not need to be changed!"

"I found I lost about 15.4 inches just from the last two treatments. My chronic backaches and knee pains have disappeared, and I experienced a surge in energy level!"

"I am happy with Suddenly Slender's service as they were genuinely enthusiastic about helping me slim down. The bonus was that it was a comfortable experience. There were also times when I had to skip treatments due to travelling. I was so worried I would gain back the weight I had lost earlier but luckily, the weight loss continued!"

SUDDENLY SLENDER SPECIALIST SAYS:

"A stressful lifestyle and uncontrolled junk food cravings make Ailin bigger, despite her past efforts to slim down. She was chosen as our customised mineral body wraps can help convert her stored sugar and fat into energy, increase her natural metabolism and reduce her cravings to help her continue losing weight even after the programme!"

PANSY KOH, 43,
The retail owner who is troubled by constant menopausal weight gain and flat body shape can now stand tall and show off her shaplier figure

**Before: 61 kg
After: 54 kg**

"Before the programme, I wasn't sure what to expect. I've tried so many ways to lose weight, from exercising to cutting down my diet but they didn't give me the results that I expected.

This is by far my most successful weight loss programme. I am delighted with the weight loss, thanks to the treatments and under the careful assistance of Suddenly Slender's staff. Besides, I have lost 25 inches over my entire body, making it more contoured. I've lost about 8.6 cm just from my waist.

I highly recommend anyone thinking of losing weight to try Suddenly Slender. I feel they are professional and do not hard sell products

BRENDA CHUA, 30,
This senior manager who suffers from chronic lupus has finally found a way to safely slim down and boost her health, which was previously impossible due to side effects and oedema caused by medication

**Before: 71.5 kg
Now: 59 kg**

"After experiencing them, I'm glad to say Suddenly Slender treatments really work. I like that it's not a one-size fits all approach, instead they tailor the treatments according to my problems. For instance, when my weight became stagnant, they would arrange for massages and perform lymphatic drainage to ease the problem.

In the past, I had difficulty slimming because I take steroids for lupus. I was doubtful that I could ever slim down. However, these three months at Suddenly Slender have helped with my weight

loss. I'm glad that I've achieved a much healthier weight and leaner body than before."

"Another reward that I've gotten from this programme is my cholesterol level improved a great deal. My friends say I look more radiant and energetic, and of course, prettier and more confident too!

I will continue the maintenance treatment to stay in my best shape and health!

SUDDENLY SLENDER SPECIALIST SAYS:

"Many ladies with health issues have given up on their right to look good and beautiful. We hope with a successful case like Brenda's, we can send the message that by targeting the root of health and weight problems with customised treatments using natural products, you can slim down healthily and happily too!"

you do not need. They strongly believe in their signature mineral body wrap treatments, which I found awakened my sluggish body. As the treatment relaxes me a little, I feel I've become more cheerful! I'm now about seven kilograms lighter, and beyond happy as I'm able to lose so much weight effortlessly! Now I definitely feel more confident when wearing my favourite outfit like shorts and look forward to keeping myself in good shape in the years to come!

SUDDENLY SLENDER SPECIALIST SAYS:

"We're glad to have successfully address Pansy's years of body woes and hypothyroid issue, making her slim and curvy by using our healthcare analyser and customised treatments. We hope to encourage all ladies at her age to continue looking good by fighting weight gain, gain their health and energy back, and be a star!"
