

Make Over Your Body

Achieve your desired curves and drop inches the healthy way

Just like how you need to get rid of impurities before your skin can absorb skincare formulas, your body also needs to detox before you can lose any weight. And we're not referring to detox pills or teas; we're talking about active customised body wraps.

NO MORE CRASH DIETS

How would you like to drop a dress size before that special occasion? With Suddenlly Slender body wraps, you can. Suddenlly Slender International, the pioneer in active body mineral wraps founded by Victoria Morton in 1969, promises a loss of at least 6 – 20 inches after the first body wrap.

These body wraps work by stimulating your body to purge toxins through your lymphatic system together with exercise. Suddenlly Slender consultants can customise them to target your trouble areas. Not to mention, they believe in a holistic slimming regime and will even advise you on healthy ways you can do it at your own time.

LOSE INCHES THE HEALTHY WAY

Unlike dehydrating wraps, the Suddenlly Slender body wrap works to bring the body back to balance. Aside from eliminating water retention and toxins, it reduces the size of fat cells, lifts and tightens skin, reduces cellulite appearance while nourishing your skin and body with 175 essential minerals.

INCH LOSS LIKE A STAR

To experience the sensational wrap that Hollywood celebs commit to before red carpet events, call Suddenlly Slender to book your appointment. The first 100 readers will enjoy a 2-day Express Slender Regime at \$99 (U.P. \$600) and receive a \$300 gift voucher. First-time customers only. Terms and conditions apply.

GET MULTIPLE HEALTH BENEFITS

The fabulous factor about the Suddenlly Slender body wrap is that it is super safe and effective. Whether you're 1 or 100 years old, this body wrap helps replenish essential minerals in the body. It can even be customised for those with ailments such as eczema, diabetes or thyroid issues.

A God-send to busy professionals, this gets rid of the waste matter in your body, saturates you with mineral goodness and helps you achieve a fabulous figure! Whether you want to reduce your post-natal bulge, burn fat or feel light and healthy, this body wrap is so safe that you can have it everyday!

Ginger Smith

WHY DOES OUR BODY NEED TO DETOX?

"Detoxification helps improve our immune system, enables our body to generate healthy cells and ultimately improves our total wellbeing.

Our body has its own detox system, but most people don't drink enough water to help their body flush out toxins naturally produced by our body processes.

"Over time, toxins accumulate in our body and prevent it from performing at its best. Our busy lives with late nights, unbalanced diets, excessive drinking, smoking and irregular exercise also contribute to various health problems, including weight gain." – Ginger Smith, spokesperson for Suddenlly Slender International, who wrapped Hollywood stars and the royal family of Saudi Arabia.
